

Fizzy Potion Recipe

Ingredients

50ml water
1 drop food colouring
2 teaspoons baking soda
30ml vinegar
20ml dish soap/washing up liquid
Pipettes
Syringes
Beaker
Spoons

Method

Choose a piece of equipment to measure 50 ml of water and pour into the beaker.

Add the food colouring using a pipette.

Add the washing up liquid.

Add the baking soda.

Add the vinegar.

Stir if needed.

Watch the fizz!

What is the capacity of your beaker?

What is the volume of liquid in the beaker once the potion is finished?
