

# WEEKLY CHALLENGE

## COLOURFUL SKITTLES

This week we're experimenting with skittles. All you need is a white plate, skittles and some water.

### What do you need:

- Skittles
- Water
- White plate

## Instructions

1. Place your skittles around the edge of a white plate.
2. Slowly pour water over the skittles.
3. Watch as the colour spreads from the skittles into the water.
4. can you make a pattern?
5. can you think of any other sweets that would work?
