

AUTUMN

TREASURE HUNT

Pine cone

Did you know pine cones close in wet weather?

Acorn

Did you know most acorns are eaten by animals and so don't get the chance to grow into a new oak tree?

Helicopter seeds

Several different types of tree have 'helicopter' seeds. How many different types can you find?

Colourful leaves

The green colour in leaves starts to break down in autumn revealing yellow and orange pigments.

Conkers

Conkers are the seed of the horse chestnut tree.

Fungi

How many different types of fungi can you find?
