

24 Days of Elf Science Activities

Tidy up time!

Extras - balloon, tissue paper

Cut the tissue paper up into small pieces and blow up the balloon.

Tidy up time!!

Can you help me tidy up the paper using a clever elf trick?

Rub the balloon on your hair and hold it over the tissue paper. Watch what happens!

Elf explanation

Rubbing the balloon on your hair charges it with static electricity. This attracts the paper making it jump up to the balloon.

Cheeky elf trick

Rub the balloon on your hair again and put it against a wall. The balloon will stick to the wall until the static charge wears off.

Boiled or not?

Extras - 1 boiled egg and one raw egg

Boil one egg and leave the other raw.

Boiled or not?

Help, the eggs are mixed up, can you help me find out which one is boiled?

The raw egg will wobble as it spins!

What's inside an elf?

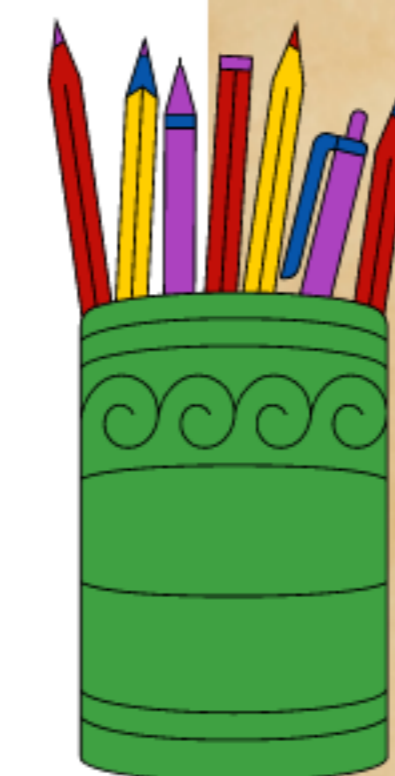

Extras - paper, pens

Draw around the elf on a piece of paper and leave next to the elf with pens next to the paper.

What's inside?

I haven't done my homework, can you help me by drawing my skeleton or brain and heart in the outline?

Don't forget to label it!

Build a snowman

Extras - marshmallows, liquid glucose or icing, chocolate or candy sticks, black and orange icing.

Build a snowman

The elves are having a tea party tonight can you help me make a snowman snack?
