

# Gingerbread Man Investigation

Which liquid makes the gingerbread men change the most?

Find out what happens to gingerbread men biscuits placed in different liquids.

## Materials

- |   |  |
|---|--|
| <input type="checkbox"/> 4 gingerbread men biscuits | <input type="checkbox"/> Vegetable oil |
| <input type="checkbox"/> Small plates or bowls      | <input type="checkbox"/> Vinegar       |
|   | <input type="checkbox"/> Water         |

## Instructions

1. Place the 4 gingerbread men in separate bowls.
2. Measure enough water, oil and vinegar to cover a gingerbread man and pour a different liquid over each gingerbread man biscuit.
3. Leave the 4th gingerbread man uncovered. This is the control.
4. Observe how the gingerbread men biscuits change every 10 minutes.

The gingerbread man covered in ..... changes the most.

The gingerbread man covered in ..... changed the least.
